

Mathematics

In mathematics this term, students will continue to develop mental and written strategies for addition and subtraction.

We will learn about fractions and dividing collections and shapes in halves, quarters and eighths. Students will continue to develop their knowledge and understanding of number sequences. We will also be looking at Australian coins and notes, building on and enhancing prior knowledge.

Farrer Primary

Year 2 Term 3 2022

Teachers: Libby Mackie and Lara Wilson

Welcome to Term 3 at Farrer! After a great first half of the year we are looking forward to another busy and exciting term. We will continue to work towards both class and individual literacy and numeracy goals, encouraging students to be independent and creative thinkers. Important events occurring this term will be NAIDOC week activities and awareness, Book Week celebrations and the Farrer Athletics Carnival.

Health/P.E. with Brett Maron

In PE this term, students will participate in athletics where they will practise and refine the fundamental movement skills of running, jumping and throwing. Students will apply these skills in activities, simple games and group challenges.

Mr Maron

Japanese with McGregor Sensei

Asobimashou! Let's play! This term, students in Year 2 will learn all about Japanese toys. They will get to play with a range of traditional toys from Japan, all the while learning lots of Japanese language. This unit introduces students to a basic verb sentence, an important building block for further language development in later years.

McGregor Sensei

Science with Kate Elliot

In chemistry Year 2 will be investigating mixtures, their purposes and properties. Students will investigate what mixtures are, why we create them and how we classify and use them. They will create mixtures for different purposes and find how changing the recipe can affect the outcome. Classes will be participating in preparation for our Spring planting in the Environment Centre gardens.

English

Our daily literacy lessons focus on components of reading, writing, grammar, spelling, speaking, listening and viewing.

Students will develop an understanding of informative texts and writing to inform. They will learn and use research skills to compose their own information text. We will plan, draft and publish final copies of our texts, continuing to edit and revise our work.

In reading, students will continue to learn a range of decoding and comprehension strategies to continue and enhance their reading development.

The Arts

This term we will continue to look at famous artists including Paul Klee, Salvador Dali and Claude Monet. We will discuss how art can illustrate different emotions and the impact art has on people. We will also be looking at the colours and textures used to depict different weather and landscapes. We will create our own artworks using a variety of new and learned textures and techniques.

Technology

This term Year 2 will continue working with iPads and Chromebooks. Students will have the opportunity to upload to Seesaw and share the work they create. They will also use technologies during group activities including maths, English, history and geography. Students will have opportunities to investigate Google Earth and Google Maps.
